WORK EXPERIENCE

Full Stack Developer

Quantified Ante

06/2025 - present

Python, Redis, WebSockets, MERN Stack, Database management

- Developed and maintained **scalable full-stack applications** using React, Next.js, Node.js, and Django, supporting **10,000+ global users**.
- Collaborated with UX/UI designers and backend teams to enhance user experience, leading to a **20% increase in user engagement**.
- Collaborated with cross-functional teams to deliver production-ready features within tight deadlines.
- Built and optimized RESTful APIs for performance, scalability, and maintainability.

Full Stack Developer

Appcore Labs

04/2023 - 05/2025

Skills: Node.js, React.js, Next.js, JavaScript, TypeScript, Redis, CSS, Chakra UI, MongoDB, Mongoose, Storyblok, API Integration, HTML, Git, Django

- Designed and implemented backend APIs and database architectures achieving **90%+ performance benchmarks**.
- Optimized frontend load times and improved application reliability through modular architecture.
- Develop **responsive, user-friendly** web applications using HTML5, CSS3, React, and Next.js for optimal cross-device experience.

EDUCATION

Master of Computer Applications

Sikkim Manipal University

06/2024 - present

SKILLS

Node.js

Python

Django

PROJECT

Vriti AI

- **Vriti AI** is an **AI-powered Recruitment Process Automation (RPA) platform** with a backend integrating **AI/ML models** for automated **candidate sourcing, screening, and communication**.
- Implemented scalable **RESTful API endpoints** for data retrieval and management, improving system **maintainability and performance**.

Quantified Ante

- **Quantified Ante** is an online trading education and analytics platform offering structured financial market training, mentorship, and proprietary tools to help traders enhance their skills and decision-making.
- Guided and mentored junior developers while enforcing clean coding standards, code reviews, and reliable deployment practices.
- Utilized **Django, MongoDB, and API integrations** to support AI-driven automation workflows.
